SUMMARY

Aspiring full stack developer with a strong grasp of the fundamentals of Front-end Development. Skilled in building and managing scalable web applications, with a good understanding of Frameworks.

EDUCATION

Degree	Duration	Institution	CGPA (Semester 5th)
B.Tech (CSBS)	2022 - 2026	Medi-Caps University, Indore	8.4

WORK EXPERIENCE

Web Development Internship | Prodigy InfoTech   **June - Aug 2024**

- Developed proficiency & efficient front-end technologies including HTML, CSS, JavaScript.
- Integrated & used UI libraries such as Bootstrap into various projects, enhancing user interface design and functionality.
- Built and deployed 4+ responsive front-end projects, while expanding skills in the front-end development.

Photo & Video Editing | Adobe LightRoom & DaVinci Resolve | Clipchamp

- Edited various photos and videos for self projects as well and various clubs   **Nov 2024**

PROJECTS

Typing Test Website | HTML, CSS, JavaScript, Bootstrap | GitHub | Link   **June - Nov 2024**

- Optimized **DOM** manipulation and event handling to ensure smooth user input processing with **<50ms** latency on key interactions.
- Applied **responsive design** principles to ensure full functionality across desktop reaching **100%** cross-device compatibility during testing.
- Engineered a **dynamic word** generation system, ensuring **non-repetitive** gameplay across multiple sessions and increasing user retention by **40%**.

Pinterest Clone | React, React Routers, Node.js MongoDB | GitHub   **Mar - April 2025**

- Engineered a dynamic **Masonry** grid layout, improving content organization and reducing layout shift issues by **40%**.
- Applied **React Router** to enable SPA-style navigation, reducing full-page reloads by **100%** and improving responsiveness.
- Optimized **MongoDB** performance using Mongoose schema design, resulting in **20%** faster query execution for image searches.

Boost AI | React.js, Node.js, Express.js, MongoDB | GitHub   **Mar - April 2025**

- Utilized **React TanStack** and custom hooks to manage global state, **API** calls, and **UI** transitions efficiently.
- Implemented **Markdown** rendering using react-markdown, allowing rich-text formatting in chat messages, improving readability by **35%**.
- Integrated **ImageKit.io** to enable image upload, storage, and optimized rendering, supporting uploads of up to **5MB** per message with **CDN** delivery.

GitHub Readme Generator | React.js, Node.js, Devicons| GitHub | Link   **May - June 2025**

- Integrated **Devicon** icons and categorized skill selection using structured JSON data.
- Built a dynamic **README** generator using **React + Vite** to help developers create personalized **GitHub profiles**.

ADDITIONAL INFORMATION

- **Technical Skills:** HTML, CSS , JavaScript, Node.js, Express.js, MongoDB, Bootstrap, Tailwind CSS.
- **Languages:** Marathi, Hindi, English.
- **Tools:** VS Code, GitHub, Google Colab, CLion IDE.
- **Certifications:** Web Development Internship @Prodigy InfoTech.
